Sternberg, a local contractor, had been announced a 10-vote winner over R. E. Robertson in the recount of the vote canvass, but the recount took away four votes in Precinct 19 at Georgetown service station, and four from Precinct 22 at the Pine beauty shop.

The recount totals were 621 for Sternberg to 619 for Robertson, with the total tally was unchanged.

Four attorneys and both candidates were on hand in the mayor's conference room at the city hall to watch the three-member aldermanic committee recount the 100 ballots.

The committee spent from 9 a.m. to 1:30 p.m. on the counting and found five ballots the election judges failed to initial, one marked in red ink, another with a check block blotted out and a badly marked ballot that had been counted.

Sternberg's consisted of Aldermen Paul Rutledge, chairman, and Emil Schmitt, and Samuel Shackelford. Attorneys on the scene were Randall Robertson, representing his father; William Beatty, representing Sternberg; City Atty. George Filcoff Jr.; and Leo Konzen, who served as tabulator.

Gun Blast Kills GC Man, 33, Who Was Going Hunting

A shotgun blast blew off the back of the head of Adron Metcalf, 33, of 3811 Kirkpatrick Homes, in what police believe was an accidental mishap about 6:40 a.m. Friday when Metcalf was alone in a bedroom at his home.

Metcalf, a shoe repairman in a St. Louis shop, had told his wife, Lydia, that he was going hunting Saturday morning and went upstairs to get ready. Mrs. Metcalf said a short time later she was going up the stairs and heard the blast. She rushed to the bedroom and found her husband on the floor in a pool of blood.

The weapon, a 12-gauge pump gun was on the floor beside Metcalf when police arrived. A spent shell was in the gun and a loaded shell was on the floor. Police believe he was loading the gun and perhaps bumped or dropped it, causing it to go off.

Lives 25 Minutes

Metcalf was still alive, but died a short time later at 7:05 p.m. after arriving at St. Elizabeth's hospital. He was the father of four children. An inquest is to be conducted by Deputy Coroner Henry Pfeiffer.

He was a native of Harland, Ky., and a veteran of the Korean war. Funeral services will be held at Harland.

In addition to his wife, he is survived by a daughter, Lucille, 13; three sons, Adron Jr., 11, Ronald, 10 and Jerry Wayne, six; seven brothers and two sisters.

An obituary notice appears elsewhere in this issue.

Pre-Pagant Party Set Saturday By Jaycees

The Granite City Junior Chamber of Commerce will hold its annual Miss Granite City Pageant in June, it was announced by Walter Mills and Paul Morris, pageant chairmen. A date is to be selected.

A "party" will be held from 2 to 4 p.m. Saturday in the First Granite City National Bank where the local pageant will be explained to possible candidates.

A "party" will be held to about 30 girls, but the party is open to any eligible girl interested in the pageant. Morris said. The girls were asked to bring their parents, if possible.

28th Election Bill

The board is awaiting a breakdown for its first bill—the \$98 cost of the March 23 election. Staicoff added an itemized bill is expected from County Clerk Miss Eulalia Hotz.

Another letter was read from Nannetti Township Supervisor Harry Briggs, who answering an inquiry from the trustees said the township would continue maintaining roads within the village until the village begins receiving motor fuel tax funds from the state. Matosian said it would take months and maybe even a year before the NPT funds would be available.

One of the first functions of the Light and Water committee

will be to meet with Carl Mathias, area manager for Light Power Co., who had written the board to offer the franchise services of the power company.

Before the informal session was adjourned, Staicoff said an official meeting will be held in the next two weeks and that the public would be notified of the time and location.

Wife Of Slain Ex-Convict Pleads Guilty To Drug Count

Carrollyn Joyce Brush, 20, pleaded guilty in police magistrate court Friday to a violation of the state narcotics act and may possibly face another charge.

She is the widow of Lawrence L. Brush, 27, a part-time auto mechanic from Hillsdale, Mo., who was shot and killed here early Thursday by police when he tried to escape from the scene of a store burglary.

Brush smashed a plate glass window in the Belmore Village shopping center and made off with a \$188 portable television set. He was chased by police and shot to death when he failed to heed warning shots, then fled.

Police said Mrs. Brush has been charged with burglary and larceny. She waived preliminary hearing Thursday and was bound over to the grand jury. Bail was set at \$5000.

marks, police said, and she admitted both had been taking narcotics.

According to police, Mrs. Brush said her husband spent a term in the federal reformatory in El Reno, Okla., for narcotics violation. A record check is being made to confirm her statement.

Brush was sentenced to a four-year term in Missouri state penitentiary in 1959 for burglary and theft. He was released last May. Mrs. Brush served 20 days in Florida for petty theft.

She told police they were "just riding around" after crossing the Lewis & Clark bridge at Alton when Brush decided to stage the burglary here.

Funeral services for Brush will be held tomorrow afternoon from a Granite City funeral home with burial taking place at Woodlawn Cemetery, Edwardsville. In addition to his wife survivors are his mother, Mrs. Velma B. Brush, Ewing, Ill., and his father, Vernon Brush of Davenport, Ia. He was a resident of Hillsdale for two months.

Musso Accepts \$225,000 In Law Suit Settlement

George Musso, Madison county treasurer and former sheriff, has accepted a \$225,000 settlement in his \$750,000 damage suit against Sinclair Oil Co. and one of its employees.

The settlement was reached Thursday while a non-jury hearing was underway in St. Clair circuit court at Belleville.

The hearing started last Monday before James W. Gray, St. Clair county probate judge and associate circuit judge.

Musso suffered severe injuries including multiple fractures to the legs and pelvic bones, in an auto accident last May 17 on Highway 66 near Edwardsville. He was a passenger in a car driven by William Buckner of East Alton which was involved in a head-on collision with Don E. Harris of Springfield during a rainstorm. Harris was attempting to pass a truck when the accident occurred. Musso charged negligence on the part of Harris, who was driving a company automobile on business.

Musso was hospitalized throughout last summer and continues to receive therapy treatments. He requires the use of crutches. More than 100 exhibits were introduced in evidence, including x-rays and films of his activities since his release from the hospital.

Physicians cited Musso's physical condition for his survival. He is a former tackle for the Chicago Bears professional football team. He was represented in the suit by the Granite City law firm of Moran, Beatty and Hiscott.

GC Agenda Lists Fluoridation, But Not \$100,000 St.

Major items—fluoridation, the sewage treatment plant engineering contract and appointment of a city treasurer—are on the agenda for tonight's Granite City council meeting.

The council, with four "lame duck" aldermen, will be meeting in its first post-election session—and there has been no mention of the \$100,000 motor-fuel tax give-away street off Fehling road. Action on it was approved about two months ago due to strong protests.

However, it was pointed out the "lame duck" aldermen would be brought up again "after the election." The street is to run from the north curve of Fehling road, extending to a point between the Kroger store and Big Top Bowl, where it would turn to join Nantahole road. It was requested by a realtor to serve a proposed new shopping center.

Two-Year Issue

Fluoridation, which was approved by Granite Cityans in an advisory election and then rejected by the council nearly two years ago, is listed under "old business."

New business does not list the treasurer appointment, but Mayor Davis said last Wednesday he was naming Ernest R. "Pat" Rich to succeed veteran Treasurer Frank Sappington, who is retiring April 30. The two-year appointment is subject to council approval.

The mayor also has said he is recommending the council rescind its previous action of approving a \$25,000 added fee contract for engineering services for a sewage plant. He favors the contract award to be made by the new council which will meet in its first session in May.

However, the item is listed on the agenda as "rescinding action" on the \$100,000 bond issue which was voted down last October.

Aldermen's Opinions

Several aldermen have expressed opinions that award of the treatment plant engineering contract is the responsibility of the present council since it is familiar with details and there is a June 1 deadline set by the state Sanitary Water Board.

By June 1 the SWB wants the city to show evidence of a bond issue to finance the construction of a treatment plant.

Tonight's agenda also includes a proposal for buying a new truck for the dog catcher, a request to revise driveways in the 1800 block of Edison avenue for the Downtown Granite City Shopping Center off-street parking lot and a circuit court summons in a traffic accident suit involving Charles and Connie Morris, vs. the City and Earl Marti, a city truck driver. The accident occurred in Madison April 2, 1962.

The state highway department wants a payment of \$275 from the city for white paint used in pavement painting, and six pages of legislative data from the Illinois Municipal League is to be presented.

Granite City Steel Co. will submit bonds for its plant's guards, and routine city officer reports are to be presented.

Girl Falls From Bike

Pamela Walker, five-year-old, daughter of Mrs. Maude Walker, 2227 Bryan avenue, received emergency treatment for bruises to the head at 8:30 p.m. Friday at St. Elizabeth Hospital. She was injured when she fell off a bicycle.

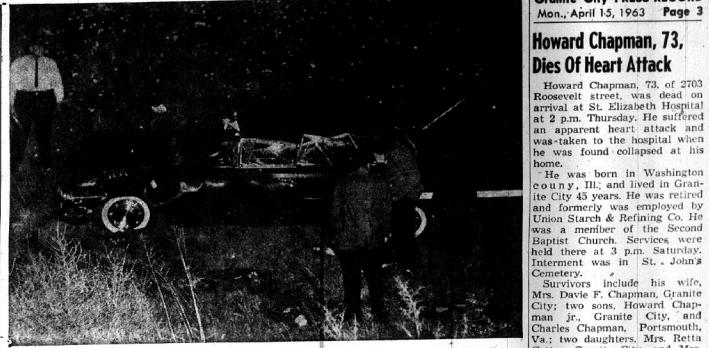

\$50 Conduct Fine

Clifford Curless, 29, of 2121 Cleveland blvd., was fined \$50 Saturday when he appeared before Police Magistrate Gasparovic and pleaded guilty to a police charge of disorderly conduct.

\$334,983 Public Aid In County Last Month

Public assistance in Madison county totaled \$334,983 during February. It was reported at Springfield by the Illinois Public Aid Commission.

Of the total, \$171,292 was paid to 4689 Madison countyans for aid to dependent children and \$83,291 for old age assistance.

Assistance expenditures totaled \$24,378,941 for the entire state. This included payments for burials, foster care for ADC children removed from unsuitable homes and care for the medically indigent in Chicago and Cicero.

Youths Post Cash Bail

Ray Heimer, 17, of 3000 Idaho street, and George Crisler, 17, of 2628 Delmar avenue, were released on \$16 cash bail each after they were arrested for disorderly conduct Friday night.

They were picked up when they were observed acting suspiciously around an auto in the 1800 block of Grand avenue, police said.

Minor Auto Accident

A minor accident occurred Friday evening at 24th street and Grand avenue. Police said an auto driven by Mildred M. Van Vleet, 24, of 2436 Lincoln avenue, scraped its side on the bumper of a parked auto owned by Horace G. Mead, of Wood River.

Auto Leaves Highway, Rolls Down Embankment

James R. Bennett Jr., 20, Brooklyn, escaped apparent injury but his father's 1960 auto was described as nearly a total loss after leaving South Fourth street, Venice, and overturning down an embankment at 9:10 p.m. Friday. He had been driving south and was forced onto the shoulder of the road by another southbound vehicle that passed him, Bennett related. He then lost control of his car and it sustained extensive damage to the top, hood and sides. Its wheels were shattered. The street carries Illinois Route Three, and connects Venice with Brooklyn.

St. David Ladies Auxiliary To Observe 50th Anniversary

The 50th anniversary of the St. David's Ladies Auxiliary will be observed with a dinner at 6:30 p.m. Friday in St. Peter E. & R. Church, 21st street and Cleveland Blvd.

A program which will include films on Wales and England will be shown, and interested persons may make reservations by calling TR 6-5334.

Mrs. Bessie Morgan Reese, who is in charge of the program, has prepared a history of the organization which derives its name from the patron saint of Wales.

"In the early 1900's," Mrs. Reese said, "the St. David's Choral Society was organized. The group consisted of about 100 male voices under the direction of the late John Morgan. This was the beginning of the cultural life of Granite City."

"The members brought into being the 'Eisteddfod' patterned after those conducted in Wales. This is a competitive meet in instrumental, vocal, choral and speech, open to children and adults. According to the old custom, the prize money was placed in fancy bags which were hung around the necks of the winners."

"It fell to the wives of the members to make these bags and to assist in many ways. So the women decided to organize which they did in April 1913, and became the St. David's Ladies Auxiliary."

GC Mile Relay Win Decides Cahokia Dual Meet; Hiles Breaks Own Discus Record

The mile relay, last event of the afternoon, was the decisive one in Cahokia Thursday afternoon, where Granite City high school nipped the Comanches 61-57 in senior division track and field competition.

The Warrior mile foursome beat back repeated Cahokia challenges in the final event to win in 3:42.3 and overcome a 37-50 CHS lead. The advantage changed hands twice in the final 440 yards before Eric Robertson pulled ahead to stay near the wire. Lateral legs in the relay were run by Mike Mounce, Ken Perry and Danny Brink.

The meet was a near-even one most of the way, although Granite City had taken an early lead in field events, thanks to another record shattering performance by weight man Joe Hiles.

Hiles' 157-1 loss of the discus won him first place in the event and eclipsed his GCIS record of 153-11 against Alton last Tuesday. Joe also took shot put honors with a 53-foot throw.

Jim Parker scored his first 100-yard dash victory in the spring. Robertson took the 440-yard run. Gary Lomax ran his fastest mile of the season and the Warrior 880-yard relay quartet finished on top to account for other Granite City first places.

Granite City swept the 440 in what Coach Ross Rosenblatt called the key event of the afternoon. "Actually, every place we won was important in a meet this close," he said.

Five Promoted At 'Y' For Judo Proficiency

Five promotions were granted the past week by the Granite City Judo club. Three were to members of the same family. The tests were held at the YMCA.

Bill Fuchs, 21, 2188 Washington, was awarded his purple belt. His sisters, Toni, 17, and Cheryl, 11, were granted green belts.

Purple belts are awarded to advanced beginners under the age of 17 for proficiency in judo. The same proficiency in the senior division (over 17 years) would rate a brown belt.

Also awarded a purple belt was Phil Webb, 15, of 7 Country Lane court. The only promotion granted in the senior division was to Ray Williams of St. Louis.

To qualify for promotion, the candidates underwent formal examinations before a board composed of the three highest ranking instructors. They demonstrated a proficiency in throwing, falling, grappling, Japanese terminology and Kodokan rules of judo.

WHEN A STRANGER COMES TO YOU, reports The Better Business Bureau of San Francisco, you must be cautious when dealing with these door-step salespeople. Here is part of their warnings.

1. Don't be in a hurry to buy or sign. Be sure the written terms are the same as those given orally.
2. Beware of statements that, "you are selected" to get something for nothing, or they just want your name for advertising purposes.
3. Don't accept blindly the story that the sales person was referred to you by a neighbor. Check the neighbor first.

BE CAREFUL ABOUT HEALTH PRODUCTS.

If any peddler attempts to advise you about how to treat your ailments by using the vitamins he wants to sell you, call your physician first. If they want to sell you health foods or dietary aids, ask the local Better Business Bureau about them. A telephone call may save you future trouble and money, for they may have little value.

WHY GAMBLE WITH YOUR HEALTH? When you need any medicines, health-aids, vitamins or sickroom needs, depend on us, your local pharmacy, for safety and integrity.

Bids Sought On New GC School Bus Contract

One-year, two-year and three-year bids on providing bus transportation for the Granite City school district are being sought. Deadline will be May 14 to give all prospective bidders an opportunity to compete.

The present three-year contract with the Community Coach Co. expires in June, and the Bi-State Transit System is honoring the contract after having acquired all Community Coach property effective April 1. It is believed that Bi-State may be among the bidders along with several Illinois firms. Due to the scope of the school contract—which has been averaging in excess of \$110,000 a year—it is felt that some may bid on the basis that they would purchase the necessary vehicles if awarded the contract.

With March costs totaling \$13,518, the school district has expended \$90,608 for transportation through the first seven months of the 1962-63 term.

Legislative Dispute To Delay Relief Checks This Month

Special from Springfield

Relief checks for April may be late because of a disagreement by the General Assembly on proposed ceilings for public aid. The disagreement was caused chiefly by a deadlock between Republicans and Democrats in both legislative branches over limiting relief payments.

Substance of the disagreement was this: Republicans in the Senate want Democratic support for a bill by Sen. Robert Cainfield (R-Rockford) which establishes ceilings of \$120 to \$240 monthly, depending on the size of the family.

Democrats do not want any ceiling and Gov. Otto Kerner, at a press conference late in March, said he would veto a bill with such limits.

An informal conference committee composed of six Republicans and four Democrats met last week to try to work out an agreement but were unable to reach a conclusion.

On Tuesday, Harold O. Swank, executive secretary of the Illinois Public Aid Commission, said relief checks were to be written April 15 and that a week later, he put in the mail a week later. However, he told newsmen, unless an emergency appropriation is made by the legislature, the mailings would be held up.

Since no action was taken and no action can be taken until the General Assembly reconvenes on Wednesday, April 17, the chances for a relief check mailing on schedule appear slim.

Committee Action On IPAC

The IPAC was the subject of other committee action and proposed legislation this week. A bill was introduced by House Speaker John Lewis, Marshall, which would remove the chairman and Rep. W. J. Murphy, Antioch and Rep. Ralph Smith, majority whip, as co-sponsors which would remove the state auditor and state treasurer from the IPAC.

Lewis said, "We need a commission that uses reason, not an axe." Later, he also commented, "We need a commission that has continuity to it."

The Lewis bill also would put Cook County Welfare Department under the IPAC. Removal of the state auditor and treasurer would leave the IPAC with seven members, the state director of finance, and six governor-appointed members.

Lewis would have the members named by the governor to serve staggered six-year terms.

Meantime, the Senate's public aid committee recommended for adoption, a bill which abolishes the IPAC and replaces the commission with a new state code department, headed by a \$25,000 a-year director, appointed by and responsible to the governor.

At that committee hearing, Highland Park Mayor Robert S. Cushman the governor's appointee as chairman of the State Revenue Study Commission, representative of the Chicago Association of Commerce and Industry.

"Staggering Relief Costs"

Cushman said: "Staggering relief costs threaten our state solvency. An estimate for the 1960-71 biennium that the Illinois cost of relief will be \$1,000,000,000, probably is low."

Bids Sought On New GC School Bus Contract

One-year, two-year and three-year bids on providing bus transportation for the Granite City school district are being sought. Deadline will be May 14 to give all prospective bidders an opportunity to compete.

The present three-year contract with the Community Coach Co. expires in June, and the Bi-State Transit System is honoring the contract after having acquired all Community Coach property effective April 1.

It is believed that Bi-State may be among the bidders along with several Illinois firms. Due to the scope of the school contract—which has been averaging in excess of \$10,000 a year—it is felt that some may bid on the basis that they would purchase the necessary vehicles if awarded the contract.

With March costs totaling \$13,518, the school district has expended \$90,608 for transportation through the first seven months of the 1962-63 term.

State Names Krause As New District Engineer

George H. Shanahan of Alton, district engineer for the Illinois division of highways at French Village, has been appointed assistant chief highway engineer at Springfield.

He is being succeeded by William S. Krause of Belleville, who has served as assistant engineer for the district.

Shanahan has served in the District Eight highway post since Jan. 1, 1962. Previously he held a number of state highway engineering positions. He is president of the Illinois Society of Professional Engineers.

The district includes Madison, St. Clair, Calhoun, Greene, Jersey, Macoupin, Montgomery, Bond, Clinton, Washington and Monroe counties.

Legislative Dispute To Delay Relief Checks This Month

Special from Springfield

Relief checks for April may be late because of a disagreement by the General Assembly on proposed ceilings for public aid. The disagreement was caused chiefly by a deadlock between Republicans and Democrats in both legislative branches over limiting relief payments.

Substance of the disagreement was this: Republicans in the Senate want Democratic support for a bill by Sen. Robert Cantfield (R-Rockford) which establishes ceilings of \$120 to \$240 monthly, depending on the size of the family.

Democrats do not want any ceiling and Gov. Otto Kerner, at a press conference late in March, said he would veto a bill with such limits.

An informal conference committee composed of six Republicans and four Democrats met last week to work out an agreement but were unable to reach a conclusion.

On Tuesday, Harold O. Swank, executive secretary of the Illinois Public Aid Commission, said relief checks were to be written April 15 and that these were to be put in the mail a week later.

However, he told newsmen, unless an emergency appropriation is made by the legislature, the checks will be held up.

Since no action was taken and since no action can be taken until the legislature meets, the mailings would be held up.

On Wednesday, April 17, the chances for relief checks arriving on schedule appear slim.

Committee Action On IPAC

The IPAC was the subject of other committee action and proposed legislation this week.

A bill was introduced by House Speaker John Lewis, Marshall, with the Republican leader, Rep. W. J. Murphy, and Rep. Ralph Smith, majority whip, as co-sponsors.

The bill would remove the state auditor and state treasurer from the IPAC.

Lewis said, "We need a commission that uses reason, not an axe." Later, he also commented, "We need a commission that has continuity to it."

The Lewis bill also would put Cook County Welfare Department under the IPAC. Removal of the state auditor and treasurer would leave the IPAC with seven members, the state director of finance, and six governor-appointed members.

Lewis would recommend the governor to serve staggered six year terms.

Meanwhile, the Senate's public aid committee recommended for adoption, a bill which abolishes the IPAC and replaces the commission with a new state department, headed by a \$25,000 a-year director, appointed by and responsible to the governor.

At that committee hearing, Highland Park Mayor Robert S. Cushman the governor's appointee as chairman of the State Revenue Study Commission, represented the Chicago Association of Commerce and Industry.

"Staggering Relief Costs"

Cushman said: "Staggering relief costs threaten our state solvency. An estimate for the 1960-71 biennium that the Illinois cost of relief will be \$1,000,000,000, probably is low."

Another controversial bill cleared the Senate last week.

The measure, introduced by Sen. Don D. Carpenter (R-East Moline) would establish three Supreme Court districts in Cook county. The vote was 32-18, strictly on party lines. Two of the districts would be in Chicago, the third in the county suburbs and country towns.

Republicans supported the Carpenter measure and the Democrats unanimously opposed it. The same pattern of support and opposition is also indicated in the House where it is scheduled for first reading when both houses reconvene April 17.

Former House Speaker Paul Powell (D-Vienna) took a broad verbal slap this week at a former director of insurance for a press conference late in March.

His target, J. Edward Day, now postmaster general, was charged with a "corrupt deal" between Powell and Day in the Stevenson administration. Far from having improved, they seem to have worsened.

Powell criticized Day for not striking a minor compromise with the insurance industry.

They have stamps for chickens and everything else," Powell said, adding that Day's agency had refused a request for a minor commemorative stamp to honor the \$15,000 for a statue of a miner on the State House grounds.

\$5000 Salary Jump

The Illinois House also passed a bill which would boost the salary of the assistant director of the department of mental health from \$12,000 to \$20,000 annually.

The House was told the position called for an intensive psychiatric background and that a \$12,000 salary was insufficient to attract qualified personnel.

The salary would be the highest paid any assistant director in any code department of the state.

The department of mental health, Dr. Francis Gerty, gets \$27,500 compared to the \$15,000 a year all other directors get.

The Senate passed by a vote of 46-0 a bill which had previously passed the House, that encourages more schools to offer summer classes.

The bill was originally drafted by the State School Problems Commission and state aid money could be used for school buildings which are used on a year-round basis.

Among House committee actions: the industry and labor relations committee recommended adoption of a bill, introduced by Rep. William Horsley (R-Springfield) to forbid all discrimination by employers between men and women employees.

The proposal would extend to all employers. A present law covers only employers with six or more employees. Reuben G. Soderstrom, president of the State Federation of Labor, told the committee passage of the bill would not interfere with union contracts.

State Supt. of Public Instruction Ray Page announced appointment of his brother, Harry Page, 33, as director of community relations, and that Gordon W. Wisnom of Diverson, would be director of the transportation division.

Their salaries will range from between \$800 and \$1000 monthly. Page's appointment is effective at the end of the school year and Wisnom's on July 1. Page currently is superintendent of schools in Diverson, Ill. town.

Ship and Diverson are in Sangamon county.

How To Be A Preferred Borrower At The Bank

By ALLEN JESSEE
Vice-President - Granite City Trust and Savings Bank

It is true that I am a banker, and therefore might be prejudiced about the value of banks. Nevertheless, stay with me a while. I get into a banking subject. You just can't speak of money for very long before coming to the subject, because understanding of his bank and banker is a vital part of everyone's personal financial success.

For instance, have you ever considered the advantages of becoming a preferred borrower at the bank? In our credit economy, I think there is no other single advantage that can mean so much to your personal economy.

For example, a borrower recently bought two storm doors for \$55. Some quick pencil work shows that he is paying a true loan cost of 27 percent. Sound outstanding? Well, it's this simple: the storm door company charged him a flat fee of \$10 for the service of arranging the loan with a bank. That fee is nearly 20 percent of his average debt over the 12 months. The remaining 7 percent is the bank's normal interest charge.

If that borrower had gone directly to the bank himself, he would have saved the \$10 and reduced the actual loan cost from 27 percent to about 7 percent. But even that interest rate can be reduced at a bank. You can become eligible for unsecured loans at only 56 per \$100 borrowed per year, because such a preferred borrower? There are four basic rules, each demanding, but simple.

NOTE: For financial assistance at banking services, you are cordially invited to consult Mr. Jesse or any of the other officers of Granite City Trust and Savings Bank, 1909 Edison Avenue. Hours: 9:00 to 2:00—Monday thru Thursday. Friday 9:00 to 1:00 and 4:00 to 7:00. Telephone — Triangle 6-1212

One, you must have steady employment with an established firm. Or you must be a professional man, or have your own business.

Two, you should have your checking account at the bank and maintain a reasonable average balance. This means that you do not have an "elevator" account, which zooms skyward on payday, and plunges to practically nothing before the next payday.

Three, you never write checks against a deposit you won't make until a few days later. Those who do so inevitably get caught out in the cold on the deposit unexpectedly cannot be made. That hurts your banking reputation.

Four, you are always right on time with loan payments, and have borrowed enough to establish your reputation for this quality. If you have ever had to be late, you have notified the bank ahead of time.

The banking philosophy behind the preferred borrower was best stated by the grandfather of American banking, J. Pierpont Morgan. When asked by a congressional committee on what basis he was willing to lend money most readily, he made this famous reply: "Gentlemen," he said, "I extend credit on character first, before property or anything else. A man I do not trust would not get money from me on all the bonds in Christendom."

For years, banks have given special consideration to those who have proved their reliability. Why not talk to one of our people about it? Adv.

Bi-State Prepares To Repay \$100,000 Transit Loan

The Bi-State Development Agency is completing arrangements to repay the \$100,000 advance it received from the Illinois and Missouri municipalities which enabled the agency to finance the feasibility and appraisal studies that led to the creation of the new Bi-State Transit System. Leo A. Fisher, chairman of the agency, announced today.
"These funds were advanced in order to study the economic feasibility of Bi-State acquiring the privately-owned transit companies in our area and consolidating them into a single, unified system—owned and operated by the public," Fisher said. "Much of the work was performed by the W. C. Gilman Company, of St. Louis, and the 1957-58 study of mass transportation in St. Louis and St. Louis county strongly urged a consolidated system."

Meany Denounces High Pressure Sales

High-pressure advertising solicitation by labor publications has been denounced by George Meany, president of the AFL-CIO, who is urging advertisers to "assess the labor press exactly as they assess competing media."

In a statement to the National Better Business Bureau, Meany said, "The only question is how much consumer acceptance they (the advertisers) get for their dollar. Nothing else is for sale."

The labor leader's remarks were made in conjunction with a warning issued by Better Business Bureaus and Chambers of Commerce against bogus labor publications which have mulcted American business of millions of dollars over the years through the sale of worthless advertising.

Harlan Dobry, manager of the Tri-Cities Chamber of Commerce, said the high-pressure labor publications operate only "to benefit the individuals who own the papers and the boiler room operators who solicit the ads."

Financial Institutions To Request Tax Numbers
Banks, savings and loan associations, credit union, insurance companies and other dividend-paying corporations are beginning the collection of taxpayer identifying numbers from their savers and investors under the terms of a new Federal law.

According to the Illinois Savings and Loan League, persons doing business with the above mentioned and other financial institutions should watch their mail boxes for notices from the corporations stating that the identifying number is needed for tax purposes. Most institutions will begin mailing requests about April 15, a league spokesman said.

Wortman Seeks Venue Change On Intimidation

A motion to quash two intimidation indictments against Frank "Buster" Wortman were denied Thursday afternoon by Judge Joseph J. Barr in Madison county circuit court in Edwardsville.

Wortman's attorneys then filed a motion for a change of venue. Wortman's trial is scheduled for next Monday. Judge Barr is to set a hearing on the new motion.

The attorneys claimed that Wortman could not get a fair trial within 100 miles of here. Wortman is accused of threatening physical harm against August F. Roller, manager of the Collinsville office of the Illinois Bell Telephone Company, and of threatening to damage firm property last Feb. 1.

He claimed that his telephone had been tapped and he was seeking removal of the alleged wiretap.

Auto Top Damaged
Joe Rigby, 2237 Ohio avenue, told police Friday morning that during the night vandals slashed the top of his convertible auto.

Survey Conclusion

Russia's School System Far Behind U. S.

Russia's basic educational system is far behind the United States, with the success of the Sputnik resulting from a highly concentrated effort with unlimited funds, it was pointed out by Dr. H. E. Williams in a talk before the Daybreak Optimist Club members Saturday morning at the YMCA.

Dr. Williams, president of Southern Baptist College, Wilma Ridge, Ark., who toured Russia in 1958 and 1959, told the breakfast club the Russian student, however, is much more dedicated to his studies than his American counterpart.

He stressed this factor was a key point in the findings of the 1959 cultural exchange program of which he was a member in surveying schools for the American Society of Comparison Education.

Dr. Williams decried Adm. Hyman Rickover's views of Russian education methods, pointing out he was in Russia at the same time as the admiral and that

schools were out of session when the admiral was there. "He talked to about five educators," Dr. Williams said.

"Americans' views of Soviet education are out of perspective. It's a duplicate of the old German-French type schooling, but is in a process of change," the speaker said.

Seven Grades Compulsory

The Russian youngsters are required to attend through seven grades, and if they qualify can go on through 10, which compares to 12 in this country, because they attend classes six days a week and 10 months of the year.

Of the curriculum, 40% is mathematics and science (chemistry, physics and biology); 35% foreign language, with emphasis on English; and 25% on the theories of communism.

There is very little physical education in schools, with athletic activities sponsored by labor unions and community organizations.
